

## Music

*At St. Anthony's, our aim is to provide a music curriculum which will enable each child to reach their full potential in music. We encourage children to enjoy singing, composing and performing and provide the children with the opportunity to perform in front of an audience both within and outside of school.*

*Music follows 'Charanga' with units covering: **Listening and Appraising; Musical Activities - creating and exploring; and Singing and Performing.** All year groups are also involved in at least one musical performance each year.*
