Things to talk about..

TAKEHOME

1st - 7th June

How can people create hope during difficult times?

'TUESDAY NEWS DAY'

This week we learnt that teenage sisters, Tala and Farah Mousa from Gaza, have created a project called *Build Hope*. They collect rubble from damaged buildings, crush it, and mix it with materials such as clay, ash, and straw to create new bricks to be used for rebuilding communities. The sisters developed the idea while living in a tent after their home was destroyed during the war in Gaza. Their venture won The Earth Prize.

Things you could talk about at home:

- Do you think young people can make a real difference in the world? Why?

Tiny Ants

This week Tiny Ants have been learning the nursery rhyme 'Miss Polly Had A Dolly'. They pretended to be doctors and nurses making the dollies better, and used oil, lotion and talcum powder to massage them. They used syringes to push the dough out making different shapes, decorated a quilt to make the dolly happy, used our senses to explore a bath bomb and outside we made Miss Polly's dolly breakfast, dinner and lunch.

Nursery

This week in Nursery we have focused on the story Superworm, where we have used adjectives such as 'super strong', 'super long' and 'super wiggly' to describe our worm drawings. Nursery have also explored plastic worms in brown gloop, soil, brown paint and water; and have used tweezers and nets to scoop them out. Nursery are also working hard on creating repeating patterns by using two colours of unifix cubes. Developing our fine motor skills using corks to paint worms has also proved popular. Nursery have also learnt a worm nursery rhyme alongside actions.

Year 2

This week in Year 2, we worked with our Kagan partners and tested and coached each other on telling the time to finish our unit. We have just started our new unit of statistics, and the children have enjoyed collecting data and making tally charts. In English, we worked in our Kagan groups and took turns in the hot seat being 'Baby Bear' from the book 'Whatever Next'. Each group asked Baby Bear questions about how he was feeling at different points on his journey.

Year 3

Year 3 have had a lovely first week back! We have continued learning how to tell the time but found it quite tricky getting our heads around digital time after just learning analogue. We used a fun Kagan game to help us out 😊 We have also started our new English topic on 'The Pied Piper of Hamelin'. We made some predictions and imagined what it would be like to be surrounded by lots of rats. We are all super excited for this weekend and to be making our First Holy Communion!

Year 4

What a lovely start to our final half term in Year 4... In RE, we've been focusing on the global Church. We started by researching saints from all around the world and we had the choice of creating a paper fact file, or a PowerPoint presentation. In RHE, we developed our understanding of the Catholic Social Teaching of Solidarity and the Common Good by creating a communal piece of artwork. We can achieve so much when we work together! This week we have also written special themed prayers and debated about Nick's plans in our English book, Raven Boy.

Year 6

We had a really lovely day with Dan and Emily from One Life Music on Wednesday. Our friends from St. Andrew's came to join us and together we prayed, played 'human bingo', learnt some new songs, created our own versions of snakes and ladders and wrote positive affirmations for each other.

A healthier choice for growing smiles

Smile Month

50 Years Celebrating Smiles

11th May -
11th June 2026

1

Protects Teeth

Water does not contain sugar or acid, so it won't contribute to tooth decay. Juice—even "natural" juice—can wear down enamel and lead to cavities.

3

Keeps kids properly hydrated

Water hydrates the body more effectively without any extra ingredients. It helps concentration, energy levels, and overall brain function during school.

2

Lower sugar intake

Juice often contains a lot of natural (and sometimes added sugar) Drinking it regularly can increase the risk of weight gain and energy crashes. Water has zero sugar.

4

Water is much cheaper than juice and is easily available from taps or fountains, making it a more practical everyday choice.

5

Encourages healthy habits early

Choosing water helps children build lifelong healthy drinking habits, making them less dependent on sugary drinks as they grow older.

Does your child worry about going to school? Do you feel you have tried everything to ensure your child attends school, but nothing seems to be working? Do you feel there has been a relationship breakdown with your child's school? Do you have general questions around school attendance?

School Absence

If the reason for absence is due to illness, **medical evidence may be requested** to support this, please send; screenshots of appointments, prescriptions or any other supporting correspondence.

Remember to call the **school absence line** to advise of your child's absence and include their symptoms, reasons of; **'unwell', 'tired' or 'under the weather'** do not give school enough information about your child's illness.

We kindly ask all families to be honest about the reason for any absence. It is not fair to put children in the difficult position of feeling they must hide the truth about where they have been. Transparency helps us to maintain trust and ensures accurate school records.

We would like to remind all families that **Leave of Absence requests must be submitted to the school office at least four weeks in advance** of the proposed absence date.

Please note that, in line with government guidance, **holidays during term time cannot be authorised**. However, if your child will be absent from school for any reason, you are still required to complete a Leave of Absence request form so that we can record the absence appropriately.

Thank you for your co-operation and continued support.
